

CALIBRATION LABORATORY

Faculty In charge

Dr. Srinivasan S, Professor

Dr. Mythili M, Assistant Professor

Dr. Ganeshram A, Assistant Professor

Technical Staff

Mr. Jagadheesh A, Professional Assistant - I

CALIBRATION LABORATORY

- The Calibration Laboratory is equipped to calibrate the vital industrial process parameters such as electrical quantity, temperature and pressure.
- The laboratory consist of Multiproduct Calibrator, Dry Temperature Bath, Dead Weight Tester, IR Calibrator, Thermal Imager, Standard RTD and 6½ Digit multimeter.
- The student understand the calibration procedure and get trained in calibrating the field instruments.

Process Calibrator

CALIBRATION LABORATORY

High Temperature Calibrator

Low Temperature Calibrator

IR Calibrator

CALIBRATION LABORATORY

Dead Weight Tester

Thermal Imager

**Reference standard R type Thermocouple
Reference sensor (RTD) probe**

CALIBRATION LABORATORY

Viscometer and Thermosel

Smart Pressure Calibrator
